SUMMARY

Frontend Developer with hands-on experience building and deploying React applications, including an analytics dashboard, e-commerce application, and movie watchlist app. Strong foundation in HTML, CSS, JavaScript (ES6), React, and responsive design. Previous experience as a UI Developer at Motorola delivering web-based interfaces for internal applications. Comfortable working from Figma design files and collaborating across design and engineering teams.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6), React Hooks, Recharts, LocalStorage

Tools: Git, GitHub, Vite, VS Code

Concepts: State Management, Component-Based Architecture, Responsive Design, REST APIs

Currently Learning: Figma (UI design and prototyping)

PROJECTS

InsightBoard — Admin Dashboard

<https://insightboard-seven.vercel.app>

- Built a React-based admin dashboard with reusable components and multi-page navigation
- Implemented data visualization using Recharts (line and bar charts)
- Developed search functionality across users, products, and orders
- Added dark mode with localStorage persistence
- Designed responsive UI and deployed on Vercel

Fashion Mania — Mini Fashion Store

<https://mini-fashion-store.vercel.app>

- Built a responsive e-commerce UI with product filtering, search, and cart functionality
- Implemented add/remove cart logic and total calculation using reduce()
- Developed category filtering and sorting using JavaScript array methods
- Added cart persistence using localStorage
- Created reusable components and clean UI structure

CineTrack — Watchlist App

<https://my-watchlist-xi.vercel.app>

- Built a React app to track movies and shows with add/delete and filtering features
- Integrated TMDB API to fetch live movie data, using environment variables for secure API key management
- Implemented state management and derived filtering logic
- Added localStorage persistence for saved watchlist data
- Designed responsive layout and component-based structure

EXPERIENCE

UI Developer — Motorola, Austin, TX

2000 – 2002

- Developed web-based user interfaces for internal applications
- Translated business requirements into functional and user-friendly UI designs
- Collaborated with cross-functional teams to improve usability
- Performed testing, debugging, and maintenance of UI components

Real Estate Agent — Self-Employed

2020 – 2023

- Managed client relationships and guided buyers and sellers through complex transactions
- Coordinated with multiple stakeholders including lenders, inspectors, and attorneys
- Handled documentation, timelines, and client expectations effectively

CAREER BREAK

2005 – 2018: Dedicated time to family responsibilities while continuing professional development. Returned to tech through certifications at NVCC and George Mason University.

EDUCATION & CERTIFICATIONS

Web Design and Development Certification — Northern Virginia Community College (Aug 2018 – Oct 2018)

Web Applications Developer Certificate — George Mason University (Jul 2019 – Sep 2019)

Bachelor's Degree — Delhi University (Jul 1990 – Jun 1993)
